

SAFES

A-class® @safes

Product parameter:

Product color	Wrinkled black
Product use	Home, hotel, etc
Product material	Made of thickened steel
Product size	H170*W170*D200(mm)
Opening mode	password
Factory configuration	No. 5 battery *4, instructions
Product weight	2.3kg

Product parameter:

Product color	Wrinkled black
Product use	Home, hotel, etc
Product material	Made of thickened steel
Product size	H200*W420*D370(mm)
Opening mode	password
Factory configuration	No. 5 battery *4, instructions
Product weight	7.5kg

Product parameter:

Product color	Reflective dark grey
Product characteristics	Built-in jewelry drawer
Product material	Made of thickened steel
Product size	H600*W410*D360(mm)
Product technology	The box is enclosed in leather
Opening mode	Fingerprint, password, key
Factory configuration	No. 5 battery *4, instructions
Product weight	65kg

MODEL: DM-60

MODEL: DM-80

Product parameter:

Product color	Reflective dark grey
Product characteristics	Built-in jewelry drawer
Product material	Made of thickened steel
Product size	H800*W480*D420(mm)
Product technology	The box is enclosed in leather
Opening mode	Fingerprint, password, key
Factory configuration	No. 5 battery *4, instructions
Product weight	95kg

Product parameter:

Product color	orange, maroon
Product size	H240*W350*D405(mm)
Product weight	15kg
Opening mode	Fingerprint, password
Product use	Casket
Product function	Liquid crystal display
Product technology	Super fiber leather surround
Product features	Displays temperature and humidity

Product parameter:

Product color	white
Product characteristics	1070° Fire resistance to high temperature
Product material	Professional composite fireproof material
Product size	H430*W380*D310(mm)
Product technology	Box interior fiber flannelette
Opening mode	Fingerprint, password
Factory configuration	No. 5 battery *4, instructions
Product weight	45kg

Fingerprint unlocking

Fire and high temperature resistance

30mm lock bolt

The interior is fully surrounded

MODEL: MC-43

MODEL: MC-62

Product parameter:

Product color	white
Product characteristics	1070° Fire resistance to high temperature
Product material	Professional composite fireproof material
Product size	H620*W440*D380(mm)
Product technology	Box interior fiber flannelette
Opening mode	Fingerprint, password
Factory configuration	No. 5 battery *4, instructions
Product weight	65kg

Fingerprint unlocking

Fire and high temperature resistance

30mm lock bolt

The interior is fully surrounded

Product parameter:

Product color	white
Product characteristics	1070° Fire resistance to high temperature
Product material	Professional composite fireproof material
Product size	H820*W480*D420(mm)
Product technology	Box interior fiber flannelette
Opening mode	Fingerprint, password
Factory configuration	No. 5 battery *4, instructions
Product weight	85kg

Fingerprint unlocking

Fire and high temperature resistance

30mm lock bolt

The interior is fully surrounded

MODEL: MC-82
